## SENIOR DESIGN MANAGER / GRAPHICS DESIGN LEAD

NY Metro Area • 973.632.3733 [louvizzi@gmail.com](mailto:louvizzi@gmail.com)

Portfolio: [diffusebox/portfolio](http://diffusebox.com/portfolio)

The only constant is change. A pressure tested veteran with a proven track record, I have managed Digital Marketing and Production Teams throughout NYC, producing award-winning full-cycle branding, digital campaigns, & design for premium clients across many sectors. Experienced with leading teams; completing deliverables on time and under budget, focusing on advancing mutual success, efficiency, and ROI in all phases of design, marketing, branding and innovative, bespoke graphics. Bringing an analog lineage full circle into digital channels with passion, drive, and intuition; while maintaining a keen eye on bridging the creative/technical divide and maximizing productivity in remote teams.

## EXPERIENCE

### **Eversana Life Sciences**      **Senior Design Manager / Graphics Design Lead / 2021 - 2023**

- Built entire Product Team from ground up to fulfill digital initiatives for all client-facing deliverables across the healthcare research division
- Coordinate and focus back-end development teams to refine and maintain complete product platform
- Full (autonomous and collaborative) Creative Direction and senior-level engagement for product development, data visualization and complex data-driven interactive infographics
- QA/verification of complex datasets and legacy products, ensuring product integrity and consistency across channels
- Developed and maintained secure, modular UX/UI Design System for deployment across all channels
- Ensure platform usability for non-tech contributors and collaborators; providing ongoing guidance for content providers, as well as firm-wide training sessions and workshops, including periodic audits of platform functionality
- Develop completely new workflow designed to bring all legacy products into a modern cloud-based platform and streamline end-to-end content creation for a variety of user classes
- Translate static legacy PPTs into engaging, interactive, profit-centric content utilizing storyboarding and cross-solving techniques to meet the demands of wide variety of contributors
- Provide ad-hoc support to all levels of corporate engagement across sales, marketing and research channels, including email campaigns and AnnounceKit programs
- Establish completely new corporate and product branding specifications that coordinate and compliment the wider demands of the firm as well as data-driven feedback from clients
- Flourish, Tableau, Figma, Adobe Suite, Asset Management, Offshore/Remote Teams Expert and much more
